6. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

7. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District and is incorporated in this District's state. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

VENUE

8. Venue is proper in this District under 28 U.S.C. § 1400(b) because Defendant has an established place of business in this District. In addition, Defendant has committed acts of patent infringement in this District, and Plaintiff has suffered harm in this district.

PATENT-IN-SUIT

9. Plaintiff is the assignee of all right, title and interest in United States Patent No. 8,031,084 (the "Patent-in-Suit"); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

THE '084 PATENT

10. The '084 Patent is entitled "Method and system for infraction detection based on vehicle traffic flow data," and issued 2011-10-04. The application leading to the '084 Patent was filed on 2010-10-19. A true and correct copy of the '084 Patent is attached hereto as Exhibit A and incorporated herein by reference.

COUNT 1: INFRINGEMENT OF THE '084 PATENT

11. Plaintiff incorporates the above paragraphs herein by reference.

12. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the '084 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least the Defendant products identified in the charts incorporated into this Count below (among the "Exemplary Defendant Products") that infringe at least the exemplary claims of the '084 Patent also identified in the charts incorporated into this Count below (the "Exemplary '084 Patent Claims") literally or by the doctrine of equivalents. On information and belief, numerous other devices that infringe the claims of the '084 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

13. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '084 Patent Claims, by having its employees internally test and use these Exemplary Products.

14. **Actual Knowledge of Infringement.** The service of this Complaint, in conjunction with the attached claim charts and references cited, constitutes actual knowledge of infringement as alleged here.

15. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '084 Patent. On

information and belief, Defendant has also continued to sell the Exemplary Defendant Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '084 Patent. See Exhibit B (extensively referencing these materials to demonstrate how they direct end users to commit patent infringement).

16. **Induced Infringement.** At least since being served by this Complaint and corresponding claim charts, Defendant has actively, knowingly, and intentionally continued to induce infringement of the '084 Patent, literally or by the doctrine of equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '084 Patent.

17. Exhibit B includes charts comparing the Exemplary '084 Patent Claims to the Exemplary Defendant Products. As set forth in these charts, the Exemplary Defendant Products practice the technology claimed by the '084 Patent. Accordingly, the Exemplary Defendant Products incorporated in these charts satisfy all elements of the Exemplary '084 Patent Claims.

18. Plaintiff therefore incorporates by reference in its allegations herein the claim charts of Exhibit B.

19. Plaintiff is entitled to recover damages adequate to compensate for Defendant's infringement.
